Summary

- Full Stack Developer with 6 months of internship experience in JavaScript, Next.js, MERN stack, and Flutter complemented by project experience building full-stack applications with Spring Boot and Angular
- Skilled in developing responsive, scalable web applications using React.js, Next.js, and Angular, with backend development experience in Node.js, Express.js, and Java/Spring Boot, applying OOP and SOLID principles
- Experienced in designing and integrating RESTful APIs, working with both relational (MySQL) and NoSQL (MongoDB) databases, and using Git and Docker for version control and collaborative development workflows
- Seeking to bring proven full-stack development skills across modern JavaScript/TypeScript, Java, and cloud ready technologies to an Associate Software Engineer role, contributing to the design of reliable, user-focused digital solutions

Skills

Languages: Java, JavaScript, TypeScript
Frontend: HTML5, CSS3, Tailwind CSS, React.js, Angular, Next.js
Backend & APIs: Node.js, Express.js, Spring Boot (RESTful API development)
Databases: MySQL, MongoDB
Cloud & DevOps: Git, Jenkins, Docker, Kubernetes, CI/CD, AWS
Mobile Development: Flutter, React Native
Tools & Platforms: VS Code, IntelliJ IDEA, NetBeans IDE, Postman, MongoDB Compass

Work Experience

Intern Full Stack Developer

Syncrones (Pvt) Ltd — Jan 2026 – Jul 2026

- Developed responsive UI components using React.js, Next.js, and Tailwind CSS for multiple web applications
- Reduced duplicate API calls by 40% and improved load times by 30% across three projects (Hotel Booking Platform, Tala Clothing Store, and Desejo Furniture Store) by implementing Redux Toolkit Query (RTK Query) for efficient data fetching and caching
- Collaborated with cross-functional (designers, backend and QA) teams to ensure consistent UI/UX and reliable application performance
- Participated in client meetings to gather requirements and propose practical technical solutions

Projects

E-Commerce Platform – MERN Stack | View

- Developed a full-featured e-commerce application following MVC architecture
- Implemented product discovery, category filtering, shopping cart, and order management with role-based dashboards for admin and customers
- Integrated Braintree payment processing for credit card and PayPal transactions

Technologies: MongoDB, Express.js, React.js, Node.js, Braintree, REST APIs

Blog Web Application – MERN Stack | View

- Engineered a secure, full-stack blog platform with complete user authentication flows (registration, login, session management) and role-based account controls
- Built complete CRUD functionality for blog posts, including dynamic UI updates
- Implemented a commenting system that allows users to interact on blog posts
- Designed RESTful APIs and integrated frontend with backend services
  Technologies: MongoDB, Express.js, React.js, Node.js, Tailwind CSS, REST APIs

E-Commerce Shopping Application – Next.js | View

- Built a full-stack e-commerce platform using Next.js for scalable web performance
- Implemented user authentication, product browsing, purchasing functionality, and an admin dashboard for product management
- Added a user review and comment system with dynamic product rendering and a responsive UI
  Technologies: Next.js, Tailwind CSS

Hotel Management System – Spring Boot & Angular | View

- Engineered a full-stack hotel management platform with JWT authentication and role-based authorization using Spring Boot and Angular
- Designed a MySQL relational database with complex entity relationships and integrated Stripe for secure payments and JavaMailSender for automated notifications
- Implemented client-server encryption using CryptoJS to ensure data security
  Technologies: Spring Boot, Java, Angular, MySQL, JWT, Spring Security, Stripe API, JavaMailSender, CryptoJS, REST APIs

Education

Bachelor of Science in Applied Sciences 2022-2025

Computing and Information Systems, Electronics, Mathematics & Mathematical Modelling, Statistics
Wayamba University of Sri Lanka

Software Engineering Certificate Course 2025-Present

Full-stack development, software design, and data management
iCET Panadura

Certifications

- IEEE Student Branch Member at Wayamba University of Sri Lanka
- 2nd Runner Up - Inter Faculty Freshers' Carrom Championship (2022)
- IEEEXtreme 18.0 Programming Competition Participant (2024)
- WayaXtreme 3.0 Programming Competition Participant (2024)
- University Lead Ambassador, INSL (2025)
- Science Society Member, St Servatius' College (2018-2019)
